EDUCATION

BS Software Engineering

Web Design & Development, ASP .Net, C# ,Visual Programming, Machine Learning, Artificial Neural Network, Wordpress, Windows Forms, Desktop Application, Web Forms

UAJ&K | Muzaffarabad , Azad Kashmir
CGPA: 2.8
Dec 2017 - Dec 2021

ICS

Allama Iqbal Model Collage |Bagh, Azad Kashmir
PERSONTAGE: 70%
Mar 2015 - Mar 2017

SKILLS

Development

Desktop App Development, Web App Development, Unit Testing, Wordpress Development, Wordpress Custom Theme & Plugin Development, Page Builders, Elementor, Elementor Pro, WP Bakery, Custom Short codes, Custom Post-types & Taxonomies, ACF

Design

Web Design, Responsive Web Designs, User Interface Design, Visual Design, Graphic Design, Human Computer Interaction, UI/UX, Desktop App Design

EXPERIENCE

Full Stack Web Developer   May 2023 – Present

Media@Marsons | Islamabad, Pakistan

- Proficiency in HTML, CSS, JavaScript, jQuery and responsive web design for various devices.
- Experience with server-side languages like PHP and DBMS using MySQL or other database systems.
- Integrate databases into web applications using SQL Server, MySQL, or other DBMS.
- Mastery in HTML, CSS, PHP, and JavaScript for creating custom Wordpress themes.
- Proficient in designing and developing dynamic, user-friendly websites.
- Full Stack: Utilizing a comprehensive tech stack for end-to-end development.
- Specialized in WordPress custom theme and plugin development.
- Experience with popular page builders like Elementor and WP Bakery.
- Advanced skills in Elementor and Elementor Pro for efficient and visually appealing website creation.
- Able to work seamlessly with cross-functional teams to achieve project goals.
- Known for creating innovative solutions that enhance user experience.

Word Press & Web Development   Aug 2022 – April 2023
Oxygen Soft | Lahore, Pakistan

- Designing and developing advanced web applications for the web platform.
- Proficient in WordPress development, customization, and administration.
- Extensive experience with WordPress theme development and customization.
- Skilled in creating custom WordPress plugins to enhance functionality.
- Strong command of HTML, CSS, and JavaScript for building responsive and user-friendly interfaces.
- Proficient in PHP programming for server-side development.
- Specialized in designing and implementing custom WordPress themes.
- Experience with version control systems, ensuring efficient collaboration and code management.
- Implemented responsive design principles for seamless user experience across devices.
- Optimized website performance for faster loading times.

.Net Developer Intern   May 2021 – Aug 2021
Oxygen Soft | Lahore, Pakistan

- Designing and developing advanced desktop applications for the desktop platform.
- Developed and maintained .NET applications, contributing to the full software development lifecycle.
- Collaborated with cross-functional teams to analyze requirements and design scalable solutions.
- Assisted in debugging and troubleshooting code issues to ensure optimal application performance.
- Implemented enhancements and new features, adhering to coding standards and best practices.
- Gained hands-on experience with technologies such as C#, ASP.NET, and SQL Server.
- Participated in code reviews to improve code quality and foster knowledge sharing within the team.
- Worked on projects to improve system efficiency, usability, and user satisfaction.
- Engaged in continuous learning to stay updated on the latest .NET technologies and industry trends.
- Documented code and processes to facilitate seamless knowledge transfer and onboarding.

Web App Designer & Developer   Jan 2018 – May 2021
Freelancing | Rawalpindi, Pakistan

- Integrating data from various back-end services and databases.
- Full-stack expertise, seamlessly integrating front-end and back-end technologies.
- Database management skills with MySQL and SQL, optimizing data structures for efficiency.
- Responsive design implementation for optimal user experiences across devices.
- Proficiency in version control (e.g., Git) for collaborative development.
- Strong troubleshooting and debugging abilities for smooth functionality.

Interpersonal Skills

Leadership, Effective,
Communication, Self-Motivating,
Team Work

INTEREST & HOBBIES

Reading Books, Browsing,
Coding, Playing Games,

Desktop App Designer & Developer Jan 2018 – June 2021
Freelancing | Rawalpindi, Pakistan

- Skilled in designing intuitive and visually appealing user interfaces using design principles, wire framing tools, and designing prototypes.
- Proficient in integrating user interfaces with back-end code, utilizing languages like C#, WinForms, .Net, or ASP .Net.
- Expert in debugging and troubleshooting skills, using debugging tools and techniques to identify and fix errors and bugs.
- Open to changes in project requirements, and proactive in addressing any issues that may arise.
- Conduct thorough testing and quality assurance checks, ensuring reliability, security, and performance of desktop applications.
- Well-documented and well-supported applications, providing detailed documentation on application functionality and development process

PROJECTS

Al Tahaluf's

- Al Tahaluf's developed using Wordpress, WP Custom Theme & Plugin.
- JavaScript incorporated for dynamic and interactive elements.
- HTML to WordPress conversion for seamless integration.
- Custom theme development for a unique and branded look.
- Emphasis on Database Integrity for data consistency.
- Database Management System (DBMS) employed, possibly using MySQL.
- Implemented custom short codes for specific features.
- Integrated Advanced Custom Fields (ACF) for flexible content management.
- Implemented custom post types and taxonomies.
- Integration of WordPress features for enhanced content management.
- Design approach ensures compatibility with various devices and screen sizes.
- Implementation of PHP and MySQL for robust back-end functionality.
- Customized WordPress themes to align with Al Tahaluf's branding.
- Collaboration with WordPress design tools for visually appealing websites.
- Adherence to industry best practices and continuous learning.
- Ensuring seamless integration of design and functionality.

Simplicity Treading Academy

- Simplicity Treading Academy developed using Wordpress, WP Custom Theme & Plugin.
- Proficient in creating intuitive and user-friendly interfaces.
- Expertise in HTML, CSS, and JavaScript for interactive web experiences.
- WordPress custom theme development for tailored solutions.
- Emphasis on Database Integrity for robust data handling.
- Skillful use of PhpMyAdmin for efficient database administration.
- Competence in PHP for dynamic and server-side functionality.
- Integration of PHP with MySQL for seamless data flow.
- In-depth knowledge of HTML5 and CSS3 for modern web standards.
- Ensuring optimal user experience across various devices and screen sizes.
- Efficient utilization of PhpMyAdmin for database management.
- Collaboration with WordPress design tools for visually appealing websites.
- Adherence to industry best practices and continuous learning.
- Ensuring seamless integration of design and functionality.

Online Quiz System

- Online Quiz System developed using .NET framework, C#, and Windows Forms.
- Aimed at providing a user-friendly platform for conducting and participating in quizzes.
- Secure user authentication and authorization system.
- Registration and login functionalities to ensure only authorized users can access quizzes.
- Intuitive Windows Forms interface for a seamless user experience.
- Admin functionality to create and manage quizzes.
- Support for multiple question types (multiple choice, true/false, etc), and set time limits for quizzes.
- Registered users can browse and join available quizzes.
- Integration with a backend database to store user information, quiz data, and results.
- Efficient data retrieval and storage using .NET database connectivity.
- Framework for future updates and enhancements.
- Provision for adding new features and extending functionality.

QRMF

- QRMF is present in many developed centuries but to a limited extend.
- Utilized HTML for structuring and CSS for styling the user interface.
- Ensured a responsive design for seamless accessibility across various devices.
- Maintained data integrity by implementing robust database structures.
- Validated and sanitized user inputs to prevent data corruption or security vulnerabilities.
- Developed PHP applications to enhance the functionality of the medical system.
- Implemented server-side logic for processing user requests and interacting with the database.
- Integrated PhpMyAdmin for simplified database management and administration.
- Used PhpMyAdmin to execute SQL queries, manage tables, and ensure database optimization.
- Implemented JavaScript to add interactivity and dynamic behavior to the user interface.
- Validated user inputs on the client side to improve responsiveness.
- Integrated Bootstrap framework to ensure a mobile-first, responsive design.
- Utilized MySQL for efficient storage and retrieval of medical data.
- Implemented secure authentication mechanisms to protect sensitive information.

My-Library

- My Library tune with the establishment's needs and compatible with the existing technology.
- Editing and customizing Essential Landing is easy and fast.
- Supports almost every browser and Operating System.
- Developed PHP applications to enhance the functionality of the medical system.
- Implemented server-side logic for processing user requests and interacting with the database.
- Integrated PhpMyAdmin for simplified database management and administration.
- Used PhpMyAdmin to execute SQL queries, manage tables, and ensure database optimization.
- Implemented JavaScript to add interactivity and dynamic behavior to the user interface.
- Validated user inputs on the client side to improve responsiveness.
- Integrated Bootstrap framework to ensure a mobile-first, responsive design.
- Utilized MySQL for efficient storage and retrieval of medical data.
- Implemented secure authentication mechanisms to protect sensitive information.
